**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, see Remarks pages 6-17, filed 5/31/2009, with respect to the rejections of claims 1-18 have been fully considered and are persuasive. The rejections of claims 1-12 under 35 U.S.C. 101 and claims 1-18 under 35 U.S.C. 103(a) have been withdrawn.

***Allowable Subject Matter***

2. Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to fairly teach or suggest identifying at least two largest regions in each frame using a look-ahead detector executed by the processor, wherein the first largest region includes motion vectors with substantially similar motion angles and occupies a largest number of pixels in a frame and the second largest region includes motion vectors with substantially similar motion angles and occupies a second largest number of pixels in a frame; determining percentages of each frame covered by each of the at least two largest regions using the look-ahead detector; determining a statistical measure of the motion angles for at least one of the two largest regions using the look-ahead detector; and comparing the percentages and statistical measure to threshold values to identify at least one of a pan and a zoom in the video sequence using the look-ahead detector, as recited inter alia in claims 1, 7, and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
